

iPad Drive: Used or Brand New

Modern technology advances yet shortens product life cycles. Older generations of electronic products are often abandoned even though they are still in good condition. In fact, some of them, such as iPads, could well be useful tools for the underprivileged.

We would like to invite corporates and individuals to join the iPad Drive of Hong Kong Christian Service (HKCS) by donating iPads that are no longer in use but still in good condition for use by our service users. By pulling resources together, our school children could have the opportunities to benefit from e-learning beyond geographical boundaries and broaden their horizons while elderlies could also benefit from rehabilitation treatment with the aid of rehabilitation apps.

Beneficiaries and Usage

- Students of HKCS Pui Oi School
(A school for children with physical disabilities)
 - E-learning in classrooms
- Service users at HKCS's Homes for the Elderly and Day Care Centres for the Elderly
 - Individual rehabilitation treatment for the cognitive impaired elderlies and stroke survivors with the aid of rehabilitation apps
- Other needy service users
