Little Football Stars!

What you need:

- 1) Football players: cut out the rectangles from below and fold each of them in half along the white dotted line
- 2) Football: make a tiny ball with a small piece of paper

How to play:

1. Start with Rock paper scissors. Whoever wins will take the first turn.
2. Put the ball in front of any "football player" (the card you folded earlier). Tap the "football player" to "kick" the ball. And fold the "football player" again to make he/she stands.
3. If the football goes out of the "football field" (the white rectangle), your turn is over and the other player can put the ball in front of any "football player" on his/her team.
4. When the ball is shot inside the goal of your opponent, you score.

Friends, we do usually play football with our legs and feet. Now we found a new way to play it: **using our hands!** Let's get prepared and play this game with your dear family on this special football field!

Designer | Illustrator: Dear me,

To set up the "football field":

1 Cut along the yellow dotted line to make the "goal"

2 Fold inward along the black dotted line
